Mrs. Audrey Becker, Superintendent

December 9, 2021

Dear Margate School District Families,

As we approach the end of 2021, I would like to thank you for your support and understanding as we continue to navigate the pandemic and how it impacts your children in school. I am hopeful that you are confident in our guidelines and procedures to maintain the safest, most productive learning environment that we can for the wellbeing of all our students and staff.

There have been some updates in school quarantine guidelines that I wish to share with you. The new guidelines allow for fully vaccinated students, along with students who were previously Covid positive and fully recovered within the last 90-days, to remain in school even if considered a close contact to a positive case. They would not be required to quarantine, as long as they are asymptomatic and meet this criteria.

If you have decided to vaccinate your children against Covid, please feel free to send proof of vaccination to your child's school nurse. We will maintain records and can apply this new guidance with upcoming close contact cases. If you would like to get your child vaccinated and need assistance, we are also available to help with finding a location and appointment that works for your family.

I am sharing some links below, so you can review the guidelines in depth and find other pertinent information related to this topic. If you have any questions, please feel free to reach out to me directly and I will be happy to assist.

On behalf of the entire Margate School District staff, I wish you a healthy, joyful, and restful winter break later this month, and a wonderful 2022!!

Sincerely yours,

*Mrs. Audrey Becker*
