Is there anything else you would like to share about your instructional preferences for returning to school?

I prefer in class I person instruction Masks optional would hopefully be an option. I don't foresee many students feeling comfortable wearing a mask for 6-7 hrs

Frequent disinfection of surfaces

No

I believe the kids should be able to return to school. They are not learning from trying to do work on a computer with no real help

If they are socially distanced outside, could there be a way to create more outdoor classes or lunch period, gym, etc outside?

I don't see why they would have to wear masks all day if in a class of 10. I get the hallways but not all day in class.

I'm concerned about the families that vacation to areas that are hotspots in our country or abroad.

Google meets

No comment

Zoom meetings, engaging tasks

Nothing

Our teacher limited the number of zoom meetings to a few at a time

My child did work promptly in the morning.

It really didn't go well. My daughter is in Summer classes.

The zoom meeting were great, wish you salary school earlier,

Scheduled google classrooms timeframes for work to be completed.

During distance learning in the spring, what went poorly that you would like to see improved if distance learning continues?

212 responses

The effectiveness and talent of the teachers performing their best IN the classroom environment

More access to library / reading books

More communication and resources

Jack was not engaged at all with his school work. I believe distance learning was a real detriment to his academic growth

I would like to see more teachers teaching over Zoom, as opposed to just reading and doing assignments

Kids just aren't interested.

Needed help a few times and he was stuck and I was working could not help him.

Better testing and follow up with teacher making sure that students achieve their best

What other concerns do you have if a form of distance learning continues in the fall?

191 responses

I am not happy about it if that happens again.

My husband and I will be at work so my child will be responsible to complete assignments on own, I'm very concerned about the social emotional aspects of school age children being isolated from their peers

My child not receiving all the academic support I can not provide.

We both work full time and are not home to help With school work. Jack had a very hard time with distance learning and cried often

My concern is that it's not deep learning and they're missing a full curriculum

I am a single parent. The cost for care is very high when I am working.

More exercise, my son used to walk to and from school.

Grades, social, security, mental health,

Would you like to be considered as a volunteer on a district committee to further our plans?
